Answer each item according to how you honestly feel you function now as a team member rather than how you used to be or how you would like to be.

Complete each of the eighteen sentences. Each sentence has four possible endings. Please rank the endings in the order in which you feel each one applies to you. Place the number 4 next to the ending that is most applicable to you and continue down to a 1 next to the ending that is least applicable to you. Each set of endings must be ranked with a 4, 3, 2, or a 1 only.

The highest number designates your primary team-player style. If you are, highest numbers are the same or within three points of each other, consider them both as your primary style.

The lowest total indicates your least active team-player style. Your primary team-player style defines a set of behaviours that you use most often as a member of a team. It does not mean that it is the only style you use. All of us have the capacity to use any one of the four styles. We simply use one style – our primary style – most often.
