

COMP1562 – Operating System  
Laboratory 6

Scheduling  
Group ID: 21  
Group Task: Task 5

Usman Basharat  
Mohamed Aden  
Yunus Hassan  
Derek U. Mafohla

## Table of Contents

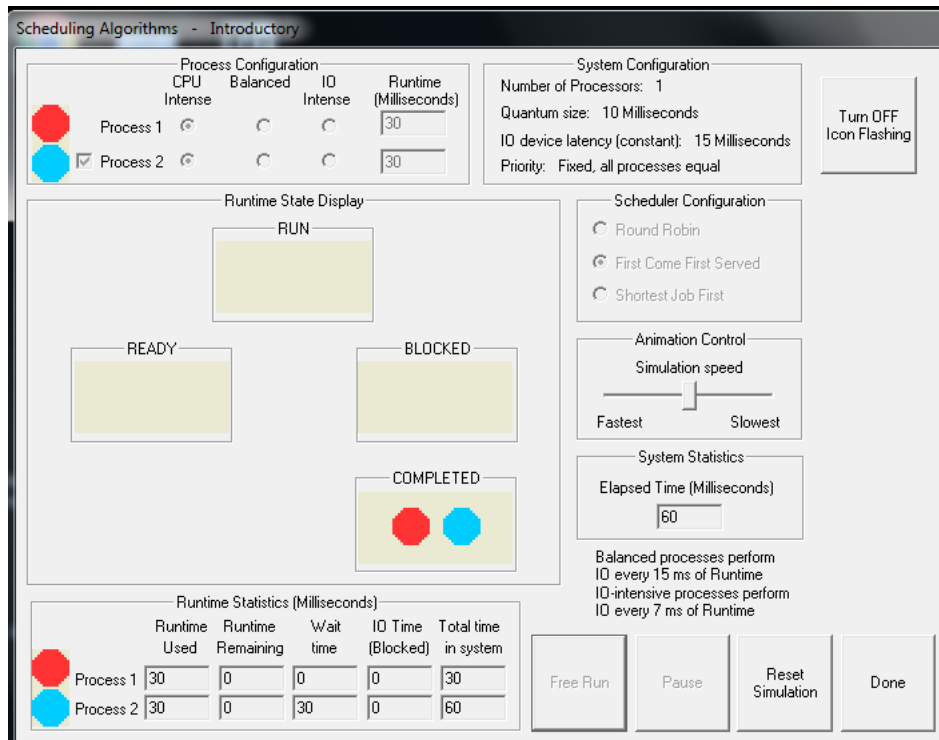

Exercise One.....	3
First Come First Serve .....	3
Round Robin.....	4
Shortest Job First.....	6
Task 5.1 .....	8
First Comes First Served.....	8
Task 5.2 .....	9
Shortest Job .....	9
Reflection .....	11

## Exercise One

### First Come First Serve

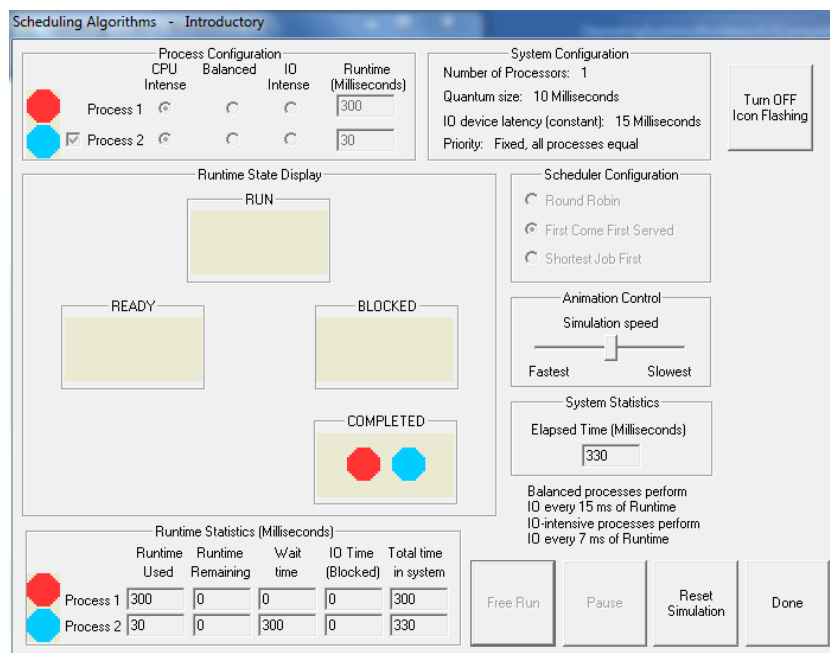

Process 1 30ms

Process 2 30ms

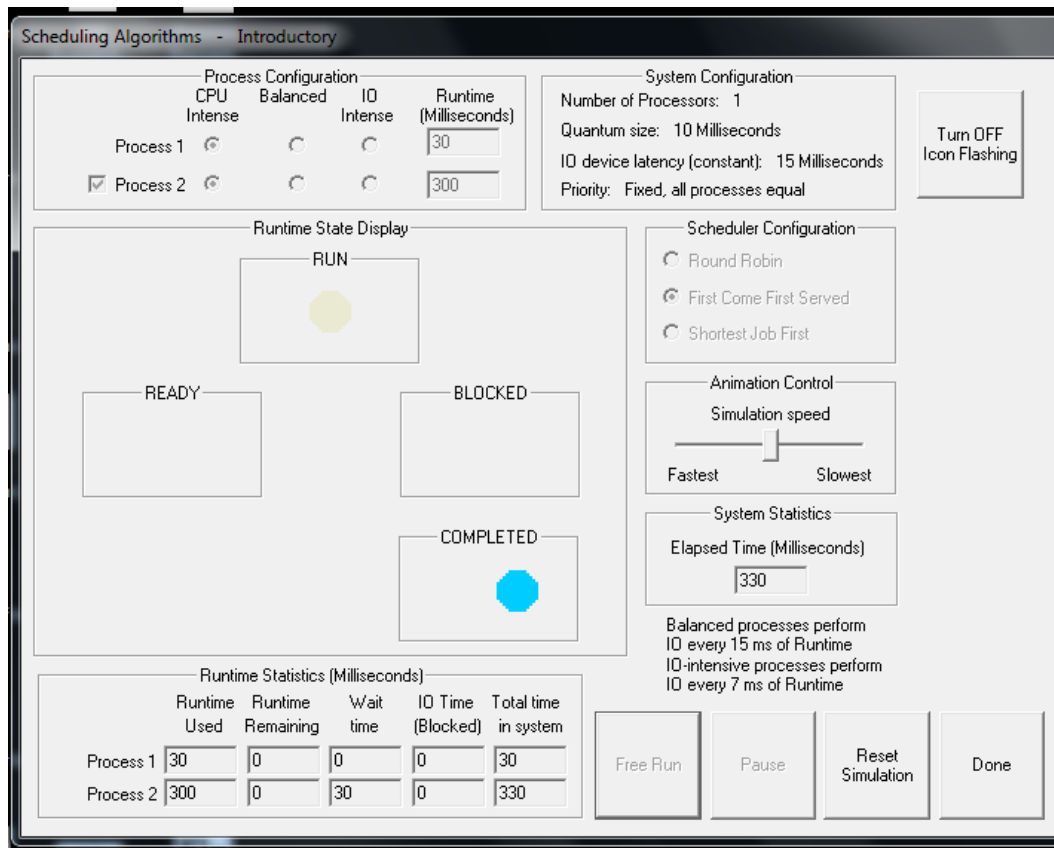

Process 1 300ms

Process 2 30ms

Process 1 30ms

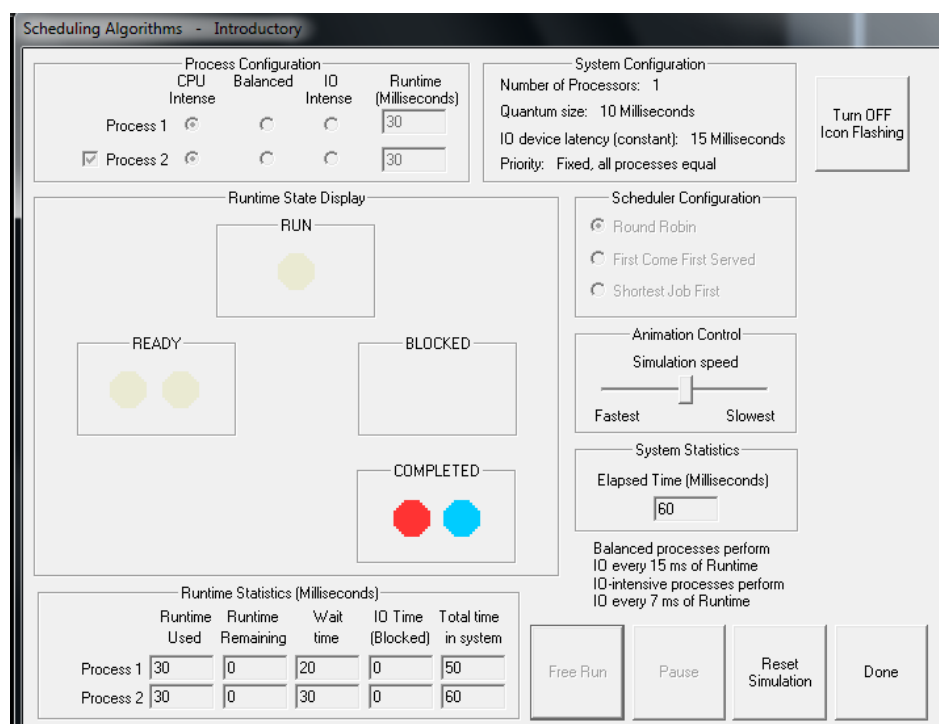

Process 2 300ms

Round Robin

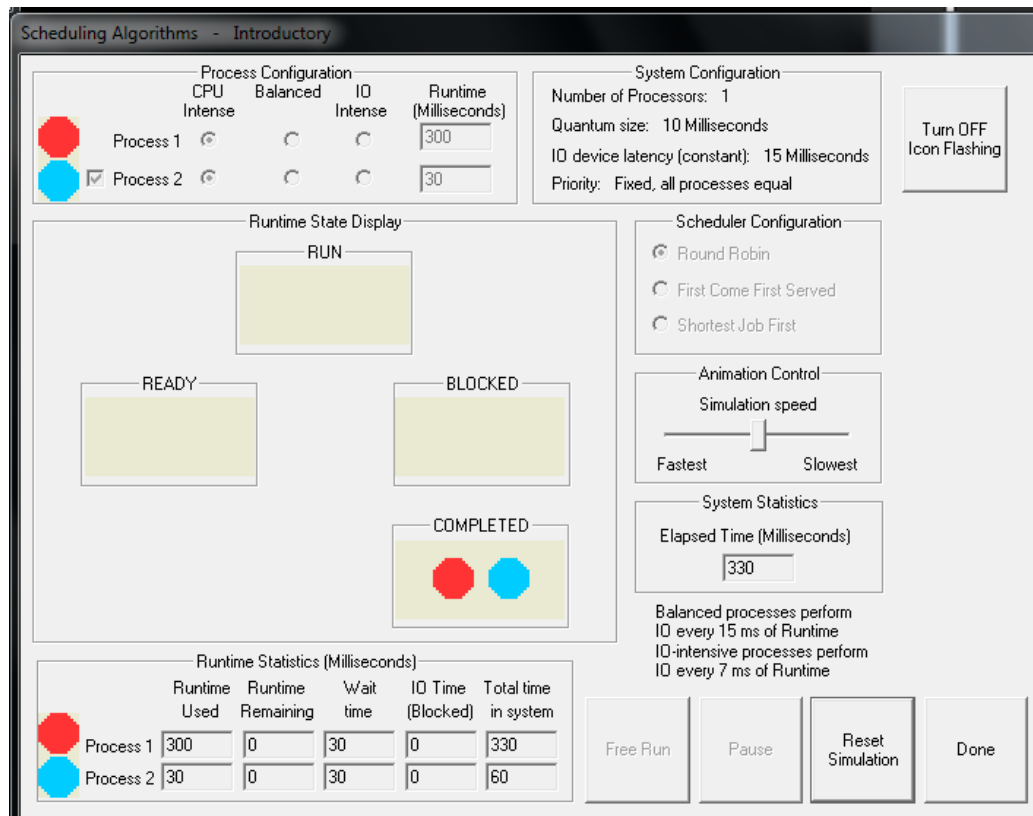

Process 1 30ms

Process 2 30ms

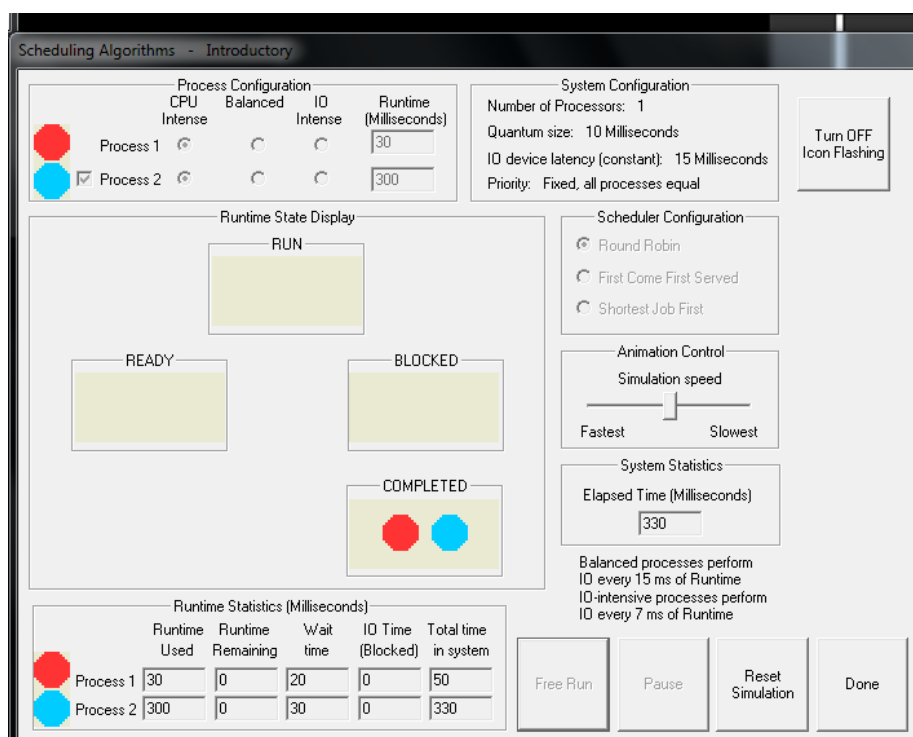

Process 1 300ms

Process 2 30ms

Process 1 30ms

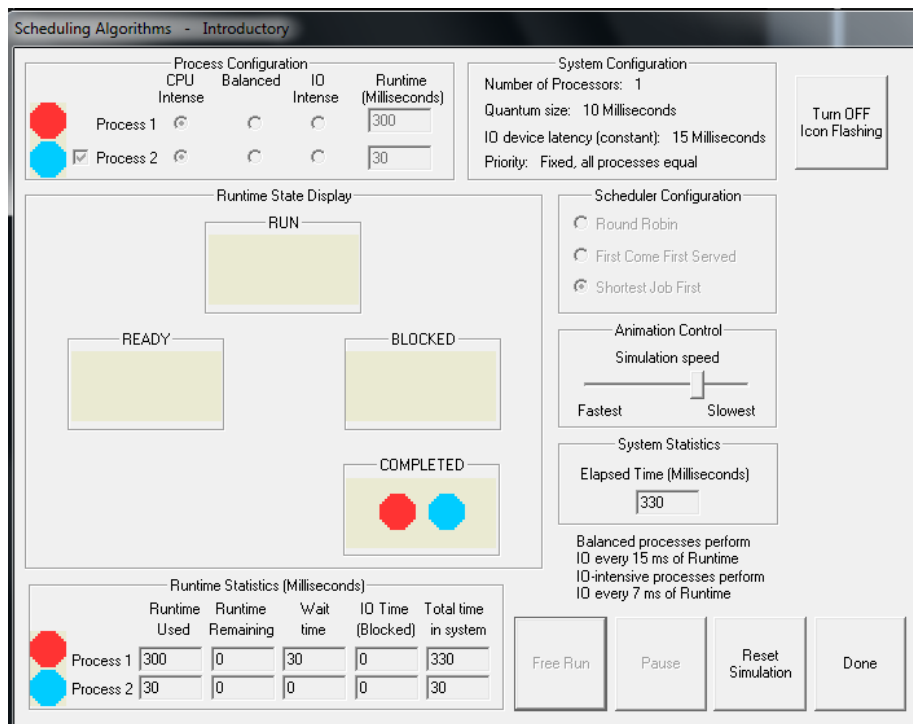

Process 2 300ms

## Shortest Job First

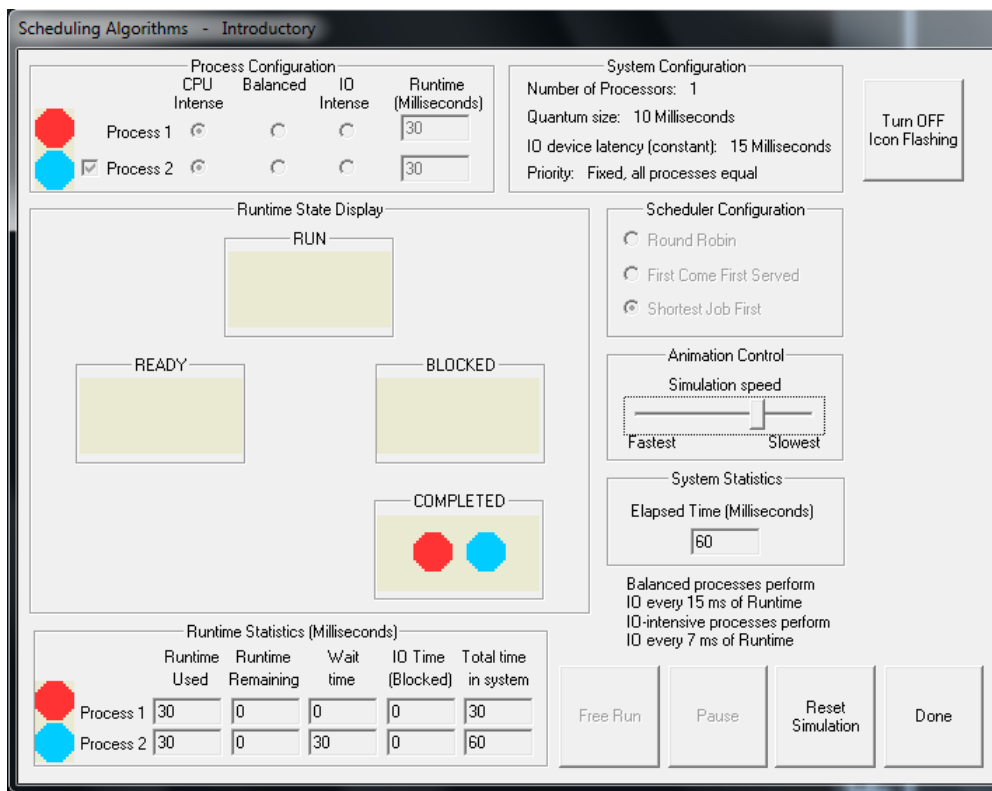

Process 1 30ms

Process 2 30ms

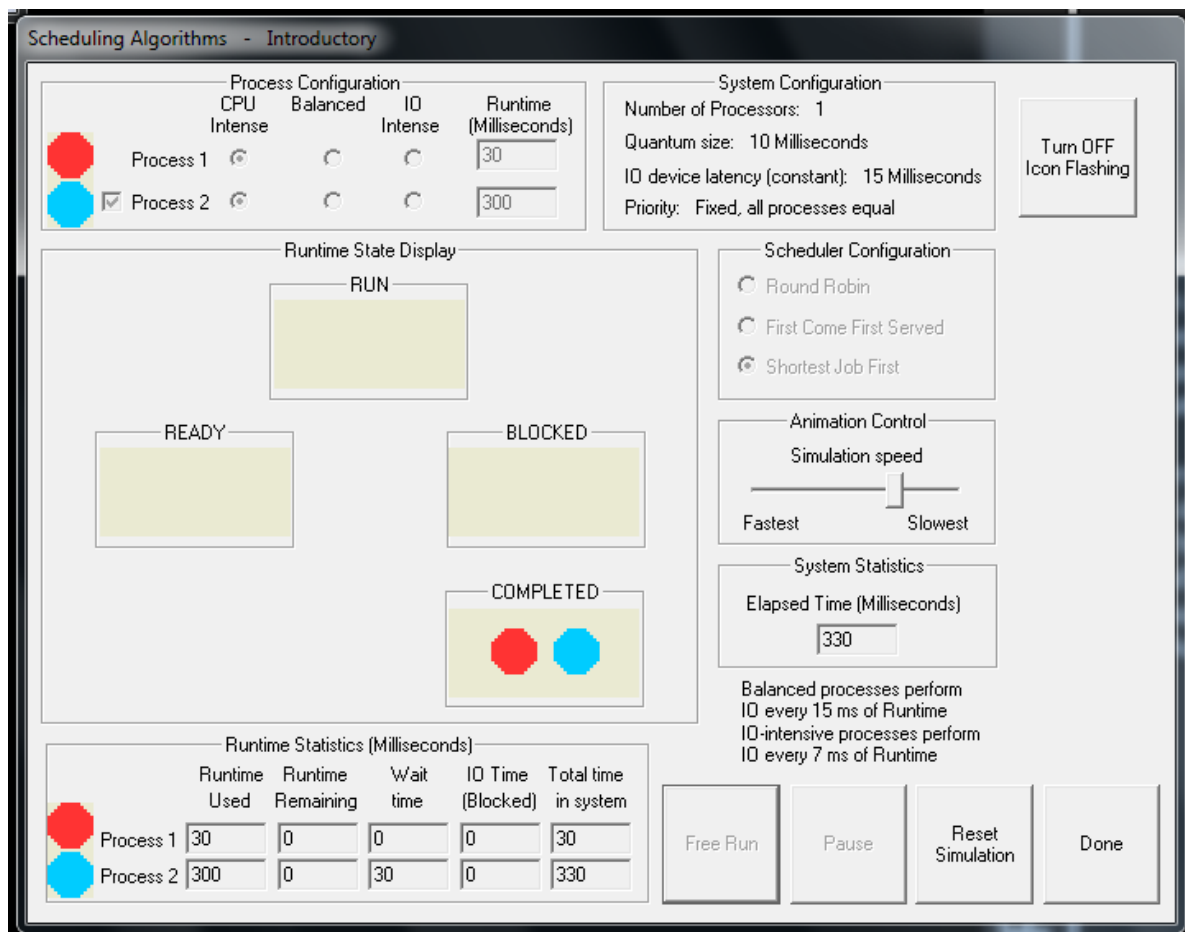

Process 1 300ms

Process 2 30ms

Process 1 30ms

Process 2 300ms

As you can see, the above screenshots are from the Operating System Workbench. Three different algorithms that need to be simulating. They are round robin, first come first served and shortest job first. Each time was monitored for each algorithm. Each algorithms acts differently with different runtimes. For example, as you can see for the screenshots above, shortest job first has a wait time that totals up time for process two. Round robin has a wait time for each process. Different algorithms have different waiting times for each process to be complete. The difference is the waiting time for each of them.

## First Comes First Served.

Process	Arrival Time [ms]	Service Time [ms]
P1	0	11
P2	2	8
P3	4	4
P4	6	6

## Gant Chart

### Average Arrival Time

$$= 0 + (11-2) + (19-4) + (23-6)$$

=41

$$= 41/4$$

$$= 10.25$$

### Average Turnaround Time

$$=11+17+19+23$$

=70

$$= 70/4$$

$$= 17.5$$

Process 1      rrrrrrrrrr

Process 2      --wwwwwwrrrrrrrr

```
Process 3    ----wwwrrrr
```

```
Process 4 -----wwwrrrrrr
```

### Shortest Job

0-11	0
21-29	2
11-15	4
15-21	6

$$= 8.75$$
$$=16$$

```
Process 4  -----wwwrrrrrr
```

### Task [5] results for group [21]

--- Marking results ---

[V] [P11] value is correct !  
[V] [P12] value is correct !  
[V] [P13] value is correct !  
[V] [P14] value is correct !  
[V] [T11] value is correct !  
[V] [T12] value is correct !  
[V] [P21] value is correct !  
[V] [P22] value is correct !  
[V] [P23] value is correct !  
[V] [P24] value is correct !  
[V] [T21] value is correct !  
[V] [T22] value is correct !

Group [21] score for task[5]: [100.000000%]

Your current score [100.000000%] is group's best [75.000000%]. Your result is saved as group's.

### Reflection

Overall, I felt that this laboratory, it was better than some of the last previous ones that we have completed recently. Even so, we need to take time and effort into any laboratory, because it was the most challenging one out of them all. These challenges took time and effort to be completed and I felt that with my group members, we were able to complete this task and get the result above. Overall, I felt that I have understood the basic understanding and importance of how to run and produce the code effectively.
